Brief Synopsis of Project

Digital India is e-Development of India as the engine for transition into a developed nation and an empowered society. The mission is to promote e-Governance for empowering citizens, promoting the inclusive and sustainable growth of the electronics, information technology and information technology

enabled services industries, enhancing India's role in internet governance, adopting a multipronged approach that includes development of human resources, promoting research and development and innovation, enhancing efficiency through digital services and ensuring a secure cyber space. Select pro people initiatives implemented as part of Digital India initiative include digiLocker, myGov.in, e-scholarship, BAS, e-sampark, jeevan parmaan, e-basta, e-greetings and e-hospital. The objective of the project is to examine awareness of various initiatives and examine the extent to which these initiatives are being utilised by citizens of India. Further the project aims to identify challenges faced by users on various programmes initiated by the government under digital India and give policy suggestions to improve utilisation of these services.
