38. ELISA TECHNIQUE

The resource person was Mr Vikas Sachdev from Department of Gastroenterology, All India Institute of Medical science, New Delhi. The lecture was attended by the students of B.Sc. (H) Zoology and B.Sc. Life Science. In his lectured Mr. Sachdev described various techniques like lithotripsy, radiological techniques, measurements of temperature, BP, heart rate and many others. Immediately after the lecture, students were given hands on training on ELISA (Enzyme linked immunosorbent assay), a diagnostic technique. Mr. Sachdev started with the theory of ELISA technique. The kit used for doing hands on was kindly gifted by Mr. Sachdev. The kit used was for diagnosis of pancreatitis. For hands on, 6 groups of 4 students each were formed. Students were explained the various steps and principle involved in the process of carrying out ELISA.

Dr. Murlidhar is a postdoctoral research associate at the Picower Institute at MIT, USA. She is one of the core members of IndSciComm and likes doing doodles, drawings, videos and gifs. She is passionate about the role of scientists as communicators and works towards highlighting problems & contributions of historically under-represented groups in science.

Mr. Abhishek Chari is a freelance science communicator, engaged in creating articles in written and audio formats. As a contributing editor & co-founder at IndSciComm, he tries to showcase interesting ways in which all our lives are inextricably linked to science. Earlier, he worked in MIT as a science writer & development assistant to support research on Neuroscience.

"Art of Scientific Writing and Communication"

On the eve of the 15th November 2021
Where to begin and Where to end

Framing a rebuttal letter
Plagiarism

The art of scientific writing is essential for effective content development. The clarity of concept along with the precise use of words/phrases are required to communicate research with the scientific fraternity. This session aims to target the aspiring students and researchers from India to improve their scientific writing techniques by adhering to accurate expression and clarity of concept. The purpose of this workshop is to alleviate the mystique impact of art of scientific writing and communication.
