Telephone : 23711551
(Present this card before each donation and when blood is required)

Dr. Ravi Toteja

Acting Principal

Acharya Narendra Dev College

It gives me an immense pleasure to write a note for the first issue of the newsletter *Surabhi*. Congratulations to the team NSS @ANDC. *Surabhi* in sanskrit means pleasing/ friendly/lovely/fragrant. Very apt name for the newsletter of National Service Scheme (NSS) which works for the society and spread inclusivity.

Since its inception in the college, NSS has come a long way. Initially, NSS activities were centered in the college but with time, NSS has spread its wings and has moved out of the college. ANDC takes pride that NSS has adopted 5 villages/slums and 10 thalassemic patients. NSS is successfully carrying out many campaigns like Anti-tobacco campaign, *Swachch Bharat Abhiyaan*, thalassemia awareness, plantation drive etc. This clearly shows that NSS wing of the college has made an outstanding contribution in generating awareness about various social issues among the common masses. It is also involved in the community services. All these activities surely motivate students and inculcate in them a sense of social responsibility fully justifying the motto of NSS that is **Not Me but You** and also the twin philosophies of the College — **Beyond the Class Room...** and **Preparing for the Future...**

This very first issue of the *Surabhi* gives the glimpses of the activities carried out by NSS and I am sure that this will be a motivating source for the students who are not involved in NSS to get involved in NSS. Through this I will urge students to participate actively in NSS and this is the platform from where you can give back to the society.

Happy Reading!!!

Dr. Manisha Jain
Programme Officer
NSS@ANDC

NSS Unit of ANDC is happy to launch its first ever newsletter '*Surabhi*' from this session onwards. The unit always felt a need to reach all college students besides registered NSS volunteers. This newsletter is a step towards achieving the same aim. '*Surabhi* means *essence* and that's what we are offering through this newsletter....an essence of social work activities under taken by ANDC NSS volunteers. The purpose of NSS Units in all colleges is to inculcate a sense of responsibility in today's youth by engaging them in short term social service endeavours. These activities connect them to the society, help them to have a glimpse of socio-economic diversity prevalent around them and understand the ways in which they can contribute to serve humanity, to reduce the gaps in various strata of society. ANDC volunteers are working enthusiastically since last few years in adopted slums/backward areas to improve their life standards. The session 2018-19 witnessed these volunteers working throughout the weekends over major two aspects, cleanliness awareness and teaching slum kids. With the beginning of new session 2019-2020 and the constitution of new NSS team, the Unit is back to work. The newsletter right now aimed at bimonthly release, will keep the ANDC community updated about all the endeavours of the Unit.

I wish good luck to all our NSS Volunteers to leave admirable impressions in the history of ANDC...

Dr. Pooja Bhagat
Co-Convener, NSS@ANDC

NSS, National Service Scheme was launched in Gandhiji's Centenary year on 24th September 1969, by the then Union Education Minister V.K.R.V. Rao at 37 universities in the country. The scheme has been extended to all universities and in many schools across all states.

Its Motto '*Not me but you*' emphasizes on service for the Society. It aims to orient the young students to the community service during their studies in educational institutions i.e. schools, colleges and universities. It imprints the idea of social welfare in students without looking into their self-interests. It not only helps in the personality development but also inculcates the leadership qualities, ability to solve individual and community problems, competence required for group living, sharing of responsibilities etc.

SYMBOL OF NSS

The Great Wheel of the world famous Konark Sun Temple, Odisha was selected as the symbol of NSS.

The red colour in wheel designates the active, energetic, enthusiastic and high spirited NSS volunteer, full of young blood, while the navy blue colour represents the cosmos of which the NSS is tiny part ready to work for the social welfare.

The wheel has eight bars which represents 24 hours a day. The Wheel depicts the cycle of Creation, Preservation and Release. It signifies the movement in life across time and space. Hence the symbol indicates continuity as well as change and implicit the continuing aspiring of NSS for social welfare.

Our NSS volunteers are highly sincere, dedicated and enthusiastic in selfless service for benefit of the society. We look forward for our NSS volunteers to continue working whole heartedly towards meeting the core objectives of NSS.

Social service helps us in discovering ourselves as individuals. Fortune fabricates the reality and through NSS endeavors, we meet people from different walks of life, who have achieved enormously and also those who appear to fail in achieving a standard of so called good life. We try to give them love and help them heal those wounds which made had them feel being cut off from the society. They find in us someone as their own. They learn that doing something is better than simply sitting and doing nothing. It expose them to opportunities and teach them to harvest the fruit of labour. It leads to the NSS volunteers also to accumulate the experiences which one has hardly thought about. Life has been unjust to many but one who looks towards positive aspects learns from difficulties. Various activities undertaken, helped the volunteers in developing various attributes such as leadership, selflessness and decision making. It is our duty as a volunteer and as well as an individual to pay back to the society for all comforts it has provided to us. Awakening moral values in everyone is panacea to the problems society is facing on daily basis. Our activities, surely does leave an impact on one's personality thus forcing them to think about bringing a change in their life.

Orientation Days 2019

The new session of the college began with Orientation Programme 'Breaking Barriers' organized by the college on July 22 and 23, 2019. NSS Volunteers provided assistance to the coordinating team in organizing this orientation programme. In this they took charge of some sessions and informed first year students about the plethora of activities and opportunities offered by ANDC to its students. During the NSS session, all new students were given a glimpse of NSS activities of the previous session 2018-19 by the NSS volunteers Prakhar Aggarwal, Vikalp Bajpai, Heena

Malik, Programme officer Dr. Manisha Jain and Co-Convener Dr. Pooja Bhagat. Following the Orientation session, a screening round for students was held for selecting new NSS volunteers for the session 2019-2020.

Jal Shakti Abhiyaan

NSS unit of ANDC carried out two activities on **July 30, 2019** as part of **Jal Shakti Abhiyaan**. A **poster competition** was organized on theme Water Conservation. The Best posters were then used as a part of **Door to Door Campaign** in the area adjoining to

college by NSS Volunteers. The campaign focused on the ways water can be conserved and harvested in residential areas on routine basis. Volunteers made the residents aware about how to minimize water wastage by collecting water from RO outlets, using flush tanks with dual knobs, frequently mopping the floor rather than washing every time, using wet dusters to clean vehicles in place of washing with running water, collecting condensed water from ACs, collecting Rain water from roof drains into tanks at ground levels, diverting the channels on roads to soiled areas like park so that rain water can seep into the ground rather than flowing into sewage drains.

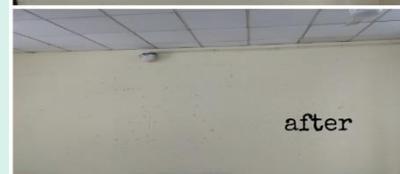

Swachhta Pakhwada 2019

As directed by Regional Director NSS, '**Swachhta Pakhwada**' had to be observed by all NSS units. This included the cleanliness activities spread over a fortnight every year

starting from 1st August to 15th August. ANDC Unit of NSS performed a lot of activities during this fortnight. The activities performed made the new volunteers acquire the information about the society in mind and spirit of selflessness in heart. On August 1, the Programme Officer, Dr. Manisha Jain and NSS Co-Convener Dr. Pooja Bhagat met the new volunteers of the unit and made them aware of the functioning of NSS and planned a schedule of activities to be done in the *swachhta pakhwara*.

Campus Cleanliness Drive

On August 2 and 3, an extensive college campus cleanliness drive was undertaken in which NSS volunteers along with other college students cleaned all open areas, classrooms, labs, canteen library and office area to create a dirt free environment. The walls of all rooms were also cleaned from all stickers. NSS volunteers could motivate other college students and received assistance from them in this cleanliness drive.

The event was very successful as the impact could be seen on fellow students for the following days, where they were seen picking up the garbage thrown by others. This reflected in them, a feeling of keeping their college clean and throwing waste properly into bins.

Plantation Drive

NSS volunteers carried out a plantation drive on August 5, 2019, in the college campus. 20 saplings of perennial trees like *Amaltas*, *Maulsiri*, *jatroopa*, *imli*, and *neem* were planted throughout the campus. NSS volunteers have adopted these saplings to take care as long as they are staying in ANDC. ANDC gardeners, Sh. Babloo and Sh. Baijnath guided the students in choosing the location and helped in preparing the soil for planting the saplings. Every

volunteer waters their adopted saplings on a regular basis. Except two plants, most of the saplings are growing well.

Cleanliness Campaign and drive in adopted slums/villages

On August 6 and 8, 2019, a cleanliness awareness campaign (door to door) was done in adopted villages Okhla, Zamrudpur, Kotla, Khanpur. On August 9 and 10, 2019, a cleanliness drive with the help of local residents was done in adopted villages. On August 13, a Swachhta Awareness rally was done in Giri Nagar, the area adjoining the college.

NSS Volunteers divided themselves in groups and visited different adopted areas.

Govindpuri

In **Govindpuri** slum the volunteer were provided cooperation from the children they used to teach in the previous session. Involving kids in the awareness campaign could encourage the

residents to clean their houses and the area in front of the house. They promised that they will try to keep their surroundings clean and beautiful.

Volunteers made them conscious about diseases spreading due to breeding of mosquitoes in stagnant water. It was a great experience to spread awareness among residents of *Govindpuri* village.

Zamrudpur

Zamrudpur was adopted by ANDC few years back as village to work on but now the area is quite developed. However it still lacks cleanliness.

The commercial area and residential area are mixed. The ground floors of most of the houses are shops and the upper floors are residential. There are mostly the shops in the area with flats on their upper part of the building. The streets lack regular cleanliness. The main reason is the garbage thrown by all houses on the streets. Though MCD workers do come, the garbage is all the time littered on the

road. A cleanliness campaign followed by actual cleanliness drive did stir the residents and the shop keepers to clean the area in front of their house and shops. Children of the area promised to throw the garbage in the dustbin always and to convince their parents to do the same also.

Khanpur

The team visiting the Khanpur village talked to residents about the need for cleanliness and tried to motivate them to maintain their locality cleaner. Most of the drains were choked with garbage. Houses in the village seem to be fine but the condition of street is grim. Everyone seems to keep the house clean and totally unconcerned about the surroundings. NSS volunteers in a door to door campaign tried to create awareness about the same.

Okhla

NSS volunteers had been quite active in Okhla village (Majdur camp) since last session. The drains in the area are littered with rotten

eatables and plastic waste and even thermocol waste littered by small scale commercial units operating in the area. The area was full of houseflies. Volunteers talked to the residents and found that no one from local residents feel

responsible enough to keep the area clean even after so many efforts put in by volunteers in last session also. This year again the focus is on this area to make the residents feel their responsibility towards their surroundings.

Swachhta Awareness Rally

On 13th August a *swachhta* rally was organized outside the college campus in the adjoining Giri Nagar. Posters for the rally were made by volunteers. Beating the scorching heat of humid

weather, NSS volunteers participated in the rally with full enthusiasm shouting the slogans "*Kadam se Kadam Milaye ja Bharat ko swachh banaye ja*", "*Sabhi rogon ki ek dawai ghar me rakho saaf safai*" and "*Hum sab ne ye thana hai bharat ko swacch*

banana hai". People came out in their balconies to watch the rally and slogans might have instilled in them the need for change.

An attempt to prevent food wastage

Most of the informal functions organized in the campus witness wastage of large quantities of leftover food. Agitated with this wastage of resources, one of our NSS volunteer, Utkarsh Singh (inspired from a last year's volunteer Manisha) came up with a suggestion of collection and distribution of all leftover food to hungry and needy people as and when the college will

organize any such party. The idea was implemented in very first event 'Fresher's party' organized by every department. Once the party was over, NSS Volunteers collected the food from all departments (each department had its own catering arrangement). They were provided bigger utensils for collection by the canteen owner Mr. Tarun. They hired a *rickshaw* and went near the Gurudwara few hundred meters away from our college and distributed the food among the labor class people. The food was sufficient to be served to around 110 people. The benefitted people were also given a lesson to throw their used paper plates in dustbin. This took care of littering on the road.

Workshop on Tobacco control and Prevention of Tobacco Induced Cancer

On August 22, 2019, ANDC NSS Unit organized a **workshop on Tobacco control and Prevention of Tobacco Induced Cancer**, in collaboration with Sambandh NGO. Sambandh initiated the Pleg4life camapaign aiming at preventing the children from consuming tobacco

or tobacco based products and thus bringing down the prevalence of tobacco induced cancers in India. Mr. Sanjay Seth, the Head of Pleg4life campaign, Mr. Pramod, Group Coordinator for Maharashtra and Delhi regions and Dr. Saurabh Gupta, Cancer Surgeon, Max Hospital Shalimar Bagh, interacted with NSS

Volunteers. Dr. Saurabh shared his experience of handling patients suffering from oral cancers induced from tobacco consumption and Mr. Sanjay Seth highlighted the need of involvement of youth in fighting the tobacco addiction in Indian Society. All NSS volunteers took the pledge that they will not consume tobacco or tobacco based products throughout their life and will encourage others also to do so.

NSS volunteers are also given an opportunity to attend events pertaining to social issues, held across the Delhi-NCR. Such events give the volunteers an exposure to various dimensions of solving societal issues and help them broaden their thought process. Here are some events our volunteers attended this month-

Charcha For Change

Charcha For Change was a talk discussing the most important issue of the hour, i.e. Climate Change. It was an initiative of Josh Talks and UNDP who brought together an environment for us all that talked about climate. In a world where many people fail to believe climate change exists, the organisers wanted to initiate a conversation over it to lay the foundation for some innovative ideas for a sustainable and safe future.

Fifteen volunteers attended the event held on 5th August at Indian Habitat Centre. Volunteers felt inspired by the welcome address by Ms. Shoko Noda who is UNDP Resident Representative followed by a number of talks of innovators and entrepreneurs who have done a commendable work in this field. There was also an environment pop quiz on environment conservation and a panel discussion on "Climate Change and Innovative Paths to a sustainable future" which was very insightful.

Goonj Volunteers Meet

Goonj, a well-known NGO of Delhi works for improving the life standards of underprivileged by using urban waste material. ANDC NSS Volunteers had been working for *Goonj* by collecting clothes, stationary and other items and sending them to *Goonj's* Sarita Vihar Unit.

Ten NSS volunteers attended a meet cum exhibition on "Disasters: Myths and Realities" at *Goonj* processing centre, sarita vihar followed by a visit of *Goonj's* Processing Centre. Volunteers got to see how the *Goonj* Staff sort out the donated material for relief purposes and pack them in gunny bags. They found that the processing centre had dedicated section for kids, schools, toys, clothes for everyone, bridal material, etc. But what was really great to see was that they were also preparing sanitary napkins from the extra cloth material and raising awareness about menstrual issues among women in rural areas.

Goonj staff made them learn the purpose of processing of all donations before giving them to the needy people as the word 'donation' hurts the dignity of the receiver. They were informed about how *Goonj* support the communities in rebuilding their villages.

Students had an interaction with Mrs. Meenakshi Gupta, co-founder of *Goonj*.

Fit India Movement

On August 29, 2019, Eleven NSS volunteers attended the **launch of** by Hon'ble Prime Minister of India, Sh Narendra Modi, at Indira Gandhi Stadium Complex, New Delhi. Other NSS volunteers attended the live telecast of the same programme arranged by Sports Department of the college.

What do our volunteers say.....

Vikalp Bajpai

B.Sc. Physical Science (Electronics) II yr

This year eleven volunteers of ANDC NSS Unit attended Fit India launch programme. As the name suggest it's aim is to motivate Indians to a have a physically and mentally healthy future. It was launched by Hon'ble Prime Minister Narendra Modi on 29th August at Indira Gandhi Stadium on the occasion of National Sports Day. We reached the IGI stadium at 7:00 AM and NSS volunteers from across DU were present along with school students. The stadium was full to its capacity and everyone looked enthusiastic about it.

Before the starting of the event we as a group were discussing among ourselves the purpose of this elaborate launch programme in the stadium. Then a lady sitting next to us told us the importance of this huge launching that sometimes show offs are necessary in the society. These are how things work in life, just like the elaborate family functions. This way they leave an impression on the participants. Some part of our life we live for ourselves and some part we live for others. It was an enlightening experience talking to that lady. Then the anchor introduced various sports personalities ageing between 80 years to 103 years. They were energetic people and old age hardly meant anything to them. Hon'ble PM arrived at 10 A.M. and everyone welcomed him with a great cheer, chanting "MODI, MODI". Children presented many cultural performances and their enthralling energy grabbed our attention. Then Modi ji gave a spectacular speech regarding the benefits of Fit India.

Prakhar Agarwal

B.Sc. Physical Science (Comp.Sc) III yr

While working in NSS I got a chance to be a part of National Integration Camp (NIC) at Jamia Milia Islamia Cultural University, New Delhi from December 23 to 29, 2018. The National Integration Camp is organised every year and duration of camp is of seven days with day-night boarding and lodging for integrating the nation through social

services and to promote rich cultural diversity, history of our diversified culture and to inculcate national pride through knowledge about our culture.

The schedule was hectic and it was quite challenging for every participant to adjust with all strangers without the resources (gadgets) which people are addicted in this era. There were 210 NSS volunteers who come from different states of India. I was one of the fifteen volunteers representing Delhi University there. In shivering winter of December it was a memorable experience to live in a tent with people from diverse cultural backgrounds of our country.

There were many activities like brainstorming sessions, adventure activities, cultural activities, competitions and much more from which I learnt a lot. There were many cultural competitions. Delhi University volunteers took part in each and every event. On behalf of Delhi University team I participated in debate competition. As many activities were going parallel and in a short span of time, I could prepare the topic in a hurried way and that itself was a great learning experience for me.

Though volunteers in Delhi University teams also didn't know each other still the cooperation and team spirit in every competition was commendable. For Nukkad Natak preparation our team was given very less time and that was the moment which brought team members closer to each other with full dedication and spirit. Our efforts were rewarded when our team won second prize among all state volunteers.

One day was fixed for Delhi Darshan by the organisers. A leisure time in between the tight nss schedule gave an opportunity to strengthen the bond among the volunteers and the purpose of this camp was being fulfilled. We got to know many things about the culture of each other, tradition and lifestyles. The proverb Unity in Diversity was reflecting in the camp. After spending much time away from our home, we were so attached with each other. It was the last day tears were filled in everybody's eyes. We had made a good bond and memory among us but now the time has come to part. The most emotional moment was when we had to dismantle our tents which we occupied for the last seven days. Everybody promised to stay connected under the friendship bond and spread the knowledge learnt there.

Manisha Bishnoi

B.Sc. (H) Zoology III yr, (NSS Volunteer 2017-19)

It was something priceless for me. I joined NSS in my first year of college. Work done by NSS@ANDC was something that I loved to do. It gave me lot of learning experiences and the teachers, friends, young minds I came across the NSS journey were worth to meet and work with.

Successfully completing any social activity gave me immense happiness. But every time it demanded to be dedicated and calm. Participate, learn and then organize - these three virtues led me to stand up and propose novel ideas for society improvement. One starts from understanding the Motto "Not Me But You" and this deep understanding transforms a person from self-centered to selfless.

If I need to talk about any one activity that I enjoyed most then it would be NIC (National Integration Camp) organized by district Institute of Education and Training, Mandi, Himachal Pradesh from February 12 to 18, 2019. Living together with different state volunteers and learning about each other's culture, food, festival and traditions was very new and interesting. This camp helped me to become more dependent on my ownself with more confidence. Participating in different activities and cultural exchange programmes helped me to know about incredibility of each state and their people. I like to have a busy cum healthy lifestyle and it was all I got there. I got proper time for my physical and mental health awareness and fun as well. Building strong relationships among different state volunteers help society to become more peaceful and harmonious.

NSS provides you chance to satisfy yourself by doing your bit for others. Providing your service to needy ones gives overwhelming happiness. We don't necessarily need a lot of time, We need heart to work happily for others. NSS is the way which helps to develop your personality, your skills, your kind and selfless attitude and it makes you a unstoppable being.

Heena Malik
B.Sc. (H) Chemistry (Batch 2016-2019)
(NSS Volunteer 2018-19)

NSS - A selfless journey to selflessness.

I have been the part of NSS @ ANDC, growing and working efficiently as a contributor to society. Starting right from Cleanliness Drive to village visits, one day activities to NSS camps, every activity organised by the unit is helpful to large extent creating awareness among students as well as people. I want to highlight my inexplicably awesome experience in village visits particularly. I worked extensively in Govindpuri slum area with my team members. Our main aim was to mobilise people regarding almost every social aspect of society by organising campaigns like anti-cracker, road safety, cleanliness, voting rights etc. Teaching session for students was also an important part of these visits. The NSS volunteership created among us the team spirit, quality of leadership, self-confidence, and of course feeling of selflessness. Thanks to our NSS Programme Officer Dr. Manisha Jain and Co-convenor Dr. Pooja Bhagat for their continuous support and guidance. Thanks to all my fellow NSS volunteers and good luck to all the fresh volunteers joining the unit this year.

Geetika
B.sc. Physical science (Chemistry) II yr

हम लोग जमरूदपुर गाँव में गए थे | वहाँ का माहौल कुछ अलग ही था | वहाँ के लोग पढ़े लिखे होने के बावजूद भी स्वच्छता की एहमियत नहीं पहचानते | हमें यह जान कर अफसोस हुआ कि वह सब लोग बस अपना घर साफ रखने में खुश हैं और बाहर की गन्दगी उनके लिए माईने नहीं रखती | ये जानते हुए भी कि उस गन्दगी से वो भी बीमार पड़ सकते हैं, वे उस गन्दगी को साफ करने के बजाये और गन्द फैला रहे हैं| वहाँ के बारे में मेरे विचार कुछ इस प्रकार हैं:

समाज हम सब से ही तो बनता है
उसे संभालना तो बनता है
हर सड़क पर इंसान ही तो चलता है
इसको साफ करना भी बनता है
घर की सफाई हर रोज हो सकती है
तो देश की कर्तव्य नहीं हो सकती?
क्या देश हम लोगों का नहीं है?
क्या देश की ज़िम्मेदारी हमारी नहीं है?

सरकार बस अभियान चला सकती है
हम लोगों में उसे अमल करने की शक्ति है
शक्ति का प्रयोग बस गरीबों को दबाने के लिए
किया जाता है इस देश में
खुद से ही तो धोखा कर रहे हो तुम
किसी न किसी वेश में
कहते हैं लोग ...गरीब गन्दगी मचाता है
अमीर ही तो है जो उसे इशारों पर नचाता है
बेचारे के पास रहने के लिए छत नहीं है
फिर भी उसे चैन से जीने का हक नहीं है
गाड़ियों से धुआं अमीर निकालता है
नालियों से गंद तो गरीब ही निकालता है
छोटे लोग मजबूरी समझ कर ये सब करते हैं
हम अपनी ज़िम्मेदारी पूरी कब करते हैं ?
सरकार हर जगह कूड़ेदान लगा देगी
और ये जनता उसी के साथ कूड़े का ढेर जमा देगी

विदेशों को देख कर तो बहुत खुश होते हैं हम
किसी और के लिए हमारा देश भी विदेश है
ये भूल जाते हैं हम
बाहर से लोग भारत में गंद और गरीबी देखने आ रहे हैं

और हम अपने देश को दर्शनीय स्थल समझते जा रहे हैं
इतना महान देश है हमारा इतनी महान संस्कृति
क्या हम सब मिल कर सुधार नहीं सकते इसकी आकृति ?

हर चीज़ संभव है बस दृढ़ता की जरूरत है
अपने आप को थोड़ा जागरूक करने की जरूरत है
गंदगी से नुकसान हमारा ही है
आखिर ये गंद भी तो हमारा ही है
बीमार हम ही होंगे इस गंदगी से
फिर ठीक होंगे विदेशी बंदगी से
विदेशी दवाईयों से खुद को ठीक करेंगे
अपना पैसा बेमतलब उनको दान करेंगे
हक जताना हर कोई जानता है
लेकिन ज़िम्मेदारी उठाना कोई नहीं जानता
अपनी माँ का ख्याल रखना तो सीख ले ऐ ज़ालिम
ये धरती हमारी माँ है ... यही सिखाती है हर तालीम ।

हमें ज़मरुदपुर के लोगों की सोच को बदलना होगा । ये देश भी हमारा ही घर है । हमे ही आस पास की जगह की सफाई का ध्यान देना होगा ।
